1. There is a total of 21 plants in sector I of the DDR whose production is primarily of a military nature. These plants are subordinate to the Amt für Wirtschaftsfragen (Office for Economic Questions) (AFW) through the Hauptabteilung Gesamtwirtschaftliche Planung (Main Department for Comprehensive Planning) of the State Planning Commission; that is, in practice the State Planning Commission gives out special production plans to the plants at the direction of the AFW. These administrative measures are designed to disguise the true function of the AFW.
2. The following are the 21 plants in question:
 - a. Benzinwerk Köhlen, Köhlen/Leipzig - high octane gas for planes and rockets
 - b. Stahl- und Eisenwerk Frankleben - cast steel armatures for artillery
 - c. Edelstahlwerk Köhlen - rolled high-grade steel profiles for tanks and rapid-fire arms (schnell-schwerartillerie)
 - d. Getriebefabrik Meissel, Leipzig - gears and elements of machines for motorized war vehicles (kriegsfahrzeuge)
 - e. Waggonfabrik Gottfried Lindner, Arnsdorf near Halle - special vehicles for transporting tanks and other military transport equipment
 - f. Simon und Co., Suhl/Thuringia - Small arms and rapid-fire arms
 - g. Lagellagerfabrik Karl Reich, Zella-Mehlis/Thuringia - Rapid-fire arms and equipment parts for mortars and guns ✓
 - h. Keilpart & Co., Suhl/Thuringia - Brass instruments for tanks
